01 · BRAND OVERVIEW

Who we are

CardPop is Australia’s trusted digital card show — a modern, community-first marketplace where collectors connect, trade, explore and grow their collections with confidence.

Mission

To create Australia’s most trusted and engaging digital card show, where collectors can connect, trade, explore and grow their collections confidently.

Vision

To become the leading global ecosystem for collectible-card enthusiasts by combining community, trust, marketplace functionality and hobby culture.

Positioning

A trusted, modern, community-first marketplace inspired by collector culture, convention energy and the accessibility of today’s best digital platforms.

02 · PERSONALITY & VOICE

How we sound

Informed and approachable. Enthusiastic and trustworthy. Community-first, always. Three archetypes shape every word and interaction.

BRAND PERSONALITY

Trusted | Modern | Passionate | Knowledgeable | Energetic | Collector-Focused | Accessible | Friendly | Efficient

CORE ARCHETYPES

01

Sage

Information, trust & expertise. CardPop leads with knowledge — grading guides, market data and collector education.

02

Everyman

Accessibility, community & inclusiveness. Every collector belongs here, from first card to full slab collection.

03

Explorer

Discovery, collecting & excitement. The thrill of the find and the energy of the show — brought online.

MESSAGING PILLARS

Trust | Community | Discovery | Accessibility | Simplicity | Passion

03 · COLOUR PALETTE

The core five

A disciplined palette built for clarity and trust. Red carries the energy; charcoal carries the authority; the neutrals give the marketplace room to breathe.

#CE1126

CardPop Red

CTAs · primary accents · buttons

#1F2937

Marketplace Charcoal

Typography · navigation · dark panels

#C4CED4

Soft Silver

Secondary surfaces · dividers

#F5F7FA

Light Grey

Page backgrounds · card fills

#FFFFFF

Cloud White

UI cards · modal backgrounds

04 · COLOUR IN USE

Psychology & pairings

CardPop Red

Energy & excitement. Use for all primary CTAs, key accents and collector-energy moments. Limit to 10–15% of any layout to preserve impact.

Charcoal

Trust & authority. The foundation of navigation, headlines and dark hero sections. Signals a serious, professional platform.

Soft Silver

Clarity & calm. Use for secondary UI, dividers and supporting text. Keeps the marketplace clean and scannable.

Light Grey

Space & breathability. The dominant page background — product cards feel elevated against it.

APPROVED COMBINATIONS

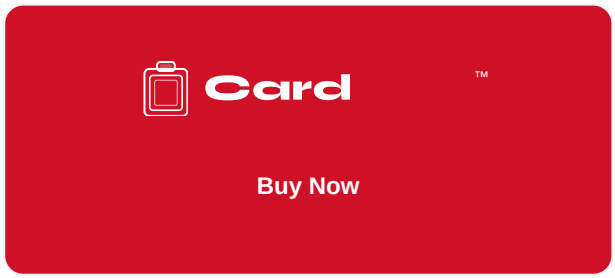

Primary — Dark hero

Primary — Light marketplace

Secondary — Cards & surfaces

CTA emphasis — use sparingly

05 · TYPOGRAPHY

Type system

DISPLAY FONT Syne ExtraBold 800 · free & open source

Where Collectors Connect.

BODY FONT Helvetica Neue — Regular (400) & Medium (500). System stack fallback, no licence cost.

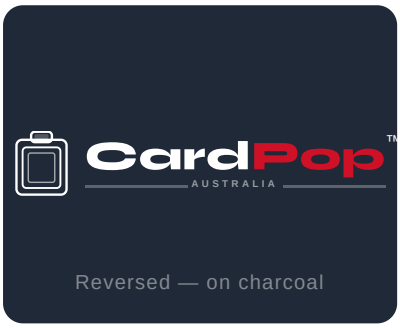

TYPE SCALE & HIERARCHY

STYLE	FONT	SIZE	USAGE
Display XL	Syne ExtraBold 800	52–64px	Hero headlines, show titles
Display LG	Syne ExtraBold 800	36–48px	Section heroes, feature headings
Heading 1	Syne Bold 700	28–32px	Page titles, seller profiles
Heading 2	Syne Bold 700	20–24px	Section headings, card titles
Body LG	Helvetica Neue 400	16–18px	Primary body text, descriptions
Body SM	Helvetica Neue 400	13–14px	Secondary info, card metadata
Label	Helvetica Neue 500	10–12px	Tags, badges, UI labels
Micro	Helvetica Neue 400	9–10px	Legal, footnotes, timestamps

06 · LOGO & IDENTITY

The mark

The CardPop mark pairs a graded-slab icon with a confident serif wordmark. The “Pop” always carries the brand red. Three approved lockups cover every background.

Reversed — on charcoal

Primary — on light

Brand red — icon accent

CLEAR SPACE & MINIMUM SIZE

Maintain clear space equal to the height of the “C” in CardPop around all marks. Minimum size: **80px** wide for digital, **25mm** for print. The slab icon and wordmark may be used together, or the wordmark alone.

07 · LOGO USAGE

Do & don’t

The mark is the most recognisable expression of the brand. Protect it — consistency here is what makes CardPop feel established and trustworthy.

✓ Do

- Maintain clear space equal to the height of the “C” around all marks
- Use only approved colour combinations: dark, light and red variants
- Keep to the minimum size — 80px wide digital, 25mm print
- Use the slab icon and wordmark together, or the wordmark alone
- Use full-white or full-charcoal monochrome when brand colours are unavailable

× Don’t

- Stretch, skew or distort the logo in any dimension
- Place the logo on busy photography without a container
- Recreate the logo in unapproved typefaces — even Syne in the wrong weight
- Add drop shadows, outlines, glows or decorative effects
- Place the red variant on non-white or non-light backgrounds

08 · BUTTONS & ACTIONS

Button hierarchy

Four button styles carry the whole marketplace. Red is reserved for the single most important action on any view.

List a Card

Primary CTA
Main actions: buy, list, trade

Browse Marketplace

Primary Dark
Navigation actions

View Collection

Secondary
Secondary actions; charcoal border

Make an Offer

Ghost / Red
Offers, alerts, destructive actions

STATES & SPECS

Buy Now

Default

Buy Now

Hover · #A50E1F

Buy Now

Active / pressed

Buy Now

Disabled · 0.4

09 · FORMS & CARDS

Inputs & product card

FORM ELEMENTS

Search cards, sellers, sets…

Default · height 40px · border 1px #E5E8EC · radius 6px

PSA 10 Charizard

Focus · border 1.5px #CE1126 · no box-shadow

PRODUCT CARD ANATOMY

- **Grade badge** — red pill, top-right of image
- **Image area** — charcoal background, card centred
- **Category** — uppercase, mid-grey label
- **Title** — bold charcoal, one line
- **Rating** — CardPop Red stars
- **Price + CTA** — bold price, red pill button

10 · SPACING & GRID

The spatial system

A single 4px-based scale governs every gap in the product. Consistent spacing is what makes the marketplace feel calm and considered.

xs	4px · 0.25rem	Icon gaps, tight inline spacing
sm	8px · 0.5rem	Component internal gaps
md	12px · 0.75rem	Card padding, form gaps
base	16px · 1rem	Standard component padding
lg	24px · 1.5rem	Section internal spacing
xl	32px · 2rem	Between page sections
2xl	48px · 3rem	Large section breaks, hero padding
3xl	64px · 4rem	Page-level breathing room

LAYOUT GRID

Desktop
1280px +

- 12-column grid
- 24px gutters
- 80px margins
- Max content 1200px

Tablet
768–1279px

- 8-column grid
- 20px gutters
- 32px margins
- Tiles: 2–3 col

Mobile
< 768px

- 4-column grid
- 16px gutters
- 16px margins
- Single column

11 · PHOTOGRAPHY & IMAGERY

Imagery direction

Authentic over staged, always. CardPop photography should feel like the real hobby — genuine collectors, real cards, honest light.

Graded Slabs

PSA/BGS/CGC slabs on clean surfaces. High-contrast lighting, label detail visible. Avoid overly staged arrangements.

Convention Energy

Card-show booth photography and collector interaction. Busy but organised. Warm ambient lighting.

Tabletop Layouts

Cards fanned on neutral surfaces — dark felt or light wood. Authentic, unposed, natural light.

Collector Portraits

Real collectors, not models. Diverse, caught in the act — sorting, inspecting, trading.

Marketplace UI

Clean device mockups showing the platform in action: listings, search, profiles.

Community Moments

Group shots at shows, trading scenes, celebrating a find. Genuine hobby-culture energy.

✓ Use

- Authentic hobby photography with real collectors
- Clean product shots on neutral or charcoal backgrounds
- Candid convention and trading moments
- High resolution — min 1200px wide for web

× Avoid

- Generic “business” stock photography
- Gambling, casino or high-stakes financial imagery
- Crypto / NFT-adjacent visual clichés
- Heavily filtered, over-processed images

12 · MOTION & ANIMATION

Motion principles

Motion is purposeful and quick. It guides attention, confirms interaction and adds a touch of collector delight — never decoration for its own sake.

Card Reveal
300–400ms · ease-out

Opacity 0→1 + translateY 8px→0. Product card entry and listing reveals.

Hover Elevation
150ms · ease

translateY -2px on card hover. A subtle lift — never a box-shadow; change the border instead.

CTA Press
80ms · ease-in

scale(0.97) on button active. Reinforces the physical interaction feel.

Page Transition
200ms · ease-in-out

Fade opacity between marketplace pages. No slide or bounce on core navigation.

Marketplace Filter
200ms · ease

Grid reflows with an opacity fade. Products fade in/out; layout shifts are instant.

Grade Badge Pop
250ms · spring

scale(0)→scale(1) on badge appear. One moment of collector delight per load.

13 · ACCESSIBILITY

Inclusive by default

Accessibility is a baseline, not an add-on. Every collector should be able to browse, buy and sell with ease — on any device, with any ability.

01
Colour contrast

All body text meets WCAG AA (4.5:1). Charcoal on white = 12.6:1. White on CardPop Red = 4.6:1. Never use Silver on white for body text.

02
Typography scale

Minimum 13px for UI text; 16px body base. Scale with user preferences — use rem/em, never lock font sizes in px only.

03
Keyboard navigation

Every interactive element is reachable via Tab. Focus rings: 2px solid CardPop Red with 2px offset. Never remove focus outlines without a replacement.

04
Touch targets

Minimum 44×44px for all interactive elements on mobile. Star ratings must be individually tappable.

05
Alt text

Card images: “[Card name], [Grade], [Year], [Set]”. Seller avatars: “[Name] seller avatar”. Decorative graphics: empty alt.

06
Reduced motion

Respect prefers-reduced-motion. Wrap animation in @media (prefers-reduced-motion: no-preference); disable card reveals and transitions.

14 · TRUST & COMMUNITY

Signals of trust

Trust is the product. Every surface should make it obvious that CardPop is a safe, verified place to trade — because confidence is what turns browsers into collectors.

Seller Verification

ID-checked profiles with a visible green verification badge. Tiers: Verified, PowerSeller, Elite. Shown prominently on every listing card.

Star Ratings

5-star system in CardPop Red with a review count. Minimum 3 reviews before an aggregate shows. Links to the full review page.

Transaction History

Visible sales count on seller profiles — “X sales” badge, positive-feedback percentage, join date and member-tenure badge.

Secure Trade Indicator

Lock icon + “Protected Trade” label on eligible transactions. Escrow and buyer-protection messaging at checkout.

15 · QUICK REFERENCE

The brand at a glance

Display font	Syne ExtraBold 800 · google.com/fonts/syne
